

\$ASAP Whitepaper

Stop the Smoke. Save the Forest.

Charity Meme Coin for Forest & Land Fire Response in Indonesia

Version 1.0 | October 2026

1. Introduction

Forest and land fires (KARHUTLA) remain a recurring crisis in Indonesia, particularly on peatlands in Sumatra and Kalimantan. The impacts include massive carbon emissions, hazardous haze, respiratory illness, loss of biodiversity, and threats to critically endangered orangutans.

\$ASAP is a community-driven charity meme coin designed to channel transparent, on-chain funding toward firefighting support, wildlife rescue, public health, and long-term prevention.

2. Vision & Mission

- Vision: Reduce the human and ecological impact of KARHUTLA through transparent, community-powered funding.
- Mission: Direct resources to verified organizations working on orangutan rescue, firefighting logistics, peatland restoration, and community health.
- Raise public awareness through accessible education and responsible communication.

3. Tokenomics

Total Supply: 1,000,000,000 \$ASAP (fixed)

Transaction Tax: 4%

- 2% → Charity Wallet (multi-signature)
- 1% → Liquidity
- 1% → Marketing & Operations

Allocation	Share	Purpose
Wildlife Rescue & Rehabilitation	35%	YIARI, BOSF, orangutan centers
Firefighting & Equipment	30%	Manggala Agni, BPBD support
Community Health	20%	Respiratory care & health services
Education & Restoration	15%	Peatland monitoring & prevention

4. Potential Partners

- YIARI – Active orangutan rescue and community firefighting in West Kalimantan.
- BOS Foundation – Nyaru Menteng and Samboja Lestari rehabilitation centers.
- Pantau Gambut – Peatland data, advocacy, and restoration.

5. Transparency & Security

- Liquidity locked for 1–2 years.
- Ownership renounced after setup.
- Multi-signature charity wallet.
- Monthly public impact reports.

6. Disclaimer

Cryptocurrency is highly speculative. This document does not constitute financial advice. Charity funds will only be distributed after partner verification. No returns are guaranteed.
